

The Signature of Quality®

ITALIAN GLASS SERIES

DESIGNED FOR MAXIMUM VISUAL IMPACT

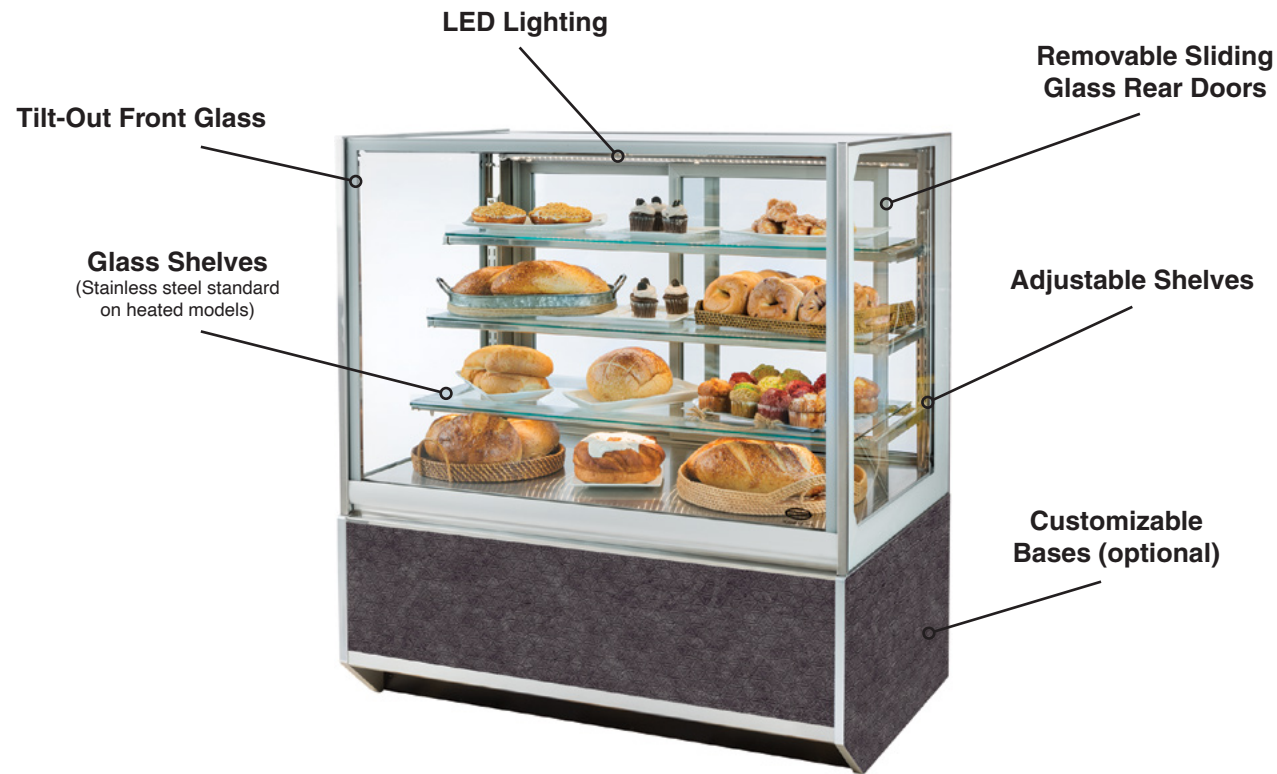

INSPIRED, UP-SCALE STYLING PERFECTLY PAIRED WITH QUALITY AND VERSATILE SOLUTIONS

Designed to Impress

The **Italian Glass Series** was engineered with thoughtfulness in every detail. This versatile line of refrigerated, non-refrigerated, and heated merchandisers features up-scale Italian styling

that is sure to showcase your products in the most elegant, professional, and appealing ways imaginable. These cases frame your merchandise and ensure that your products are the focal point

of your customer's experience; driving sales and boosting your revenue. Mix and match the **Italian Glass Series** cases to configure a solution that is as unique as your merchandise.

❄️ REFRIGERATED

- Adjustable glass shelves
- Stainless steel interior
- 3500K LED top light and shelf lights
- Removable sliding glass rear doors
- Service and self-serve styles

The Italian Glass Refrigerated models offer customizable displays in temperature-controlled configurations to accommodate bakery, beverages, and more. Up-scale styling creates an elevated experience, attracting customers to engage and interact with your products while keeping them at peak freshness. Combine refrigerated, heated, and/or non-refrigerated models in a continuous line-up, ensuring a consistent browsing experience for your guests.

Quality

Made In America
We manufacture in the USA guaranteeing you shorter delivery and high affordability options. Our heated, refrigerated, and non-refrigerated models are UL & NSF certified and DOE 2017 compliant.

Engineered with Premium Materials
Each model features tempered, thermo-pane glass and stainless steel construction.

Convenience

Simple to Clean
All Service models include tempered tilt-out front glass for easy cleaning.

Refrigerated models feature easy-to-clean evaporator pans in temperature-controlled environments to eliminate bacteria growth.

Control

On-Demand Defrost
This feature provides energy-savings while lengthening the life of your compressor.

Higher Reliability
Our PTC evaporator heater gives you greater environmental control and a safer experience for your guests by reducing the potential for water on the floor.

Adjustable
Both refrigerated and heated models feature a digital electronic temperature control to adjust the temperature to your specific needs.

Configurable
All displays have the option to be configured to create a merchandising line that fits your needs. Customize your current environment with ITRSS, ITR and ITD models that drop into your existing cabinet.

REFRIGERATED SELF-SERVE MERCHANDISERS

Models	Dimensions L x W x H

HEATED

- Adjustable stainless steel shelves
- Stainless steel interior
- 3500K LED top light and shelf lights
- Tempered thermos-pane glass construction
- Convection heating
- Optional humidity package

The heated merchandisers showcased in the Italian Glass Series offer flexibility for elegant and climate controlled food displays. Maintaining your units is a breeze as each has convection heating with clearly visible temperature controls and tilt-out front glass for easy cleaning. Model cases can be customized based on client and product needs, with options such as humidity-controlled packages, upgraded stainless shelving, rear package shelving additions, and self-closing sliding glass front doors. Upgrade your base with a variety of base laminate options, recessed casters, or join several units together for a polished, continuous line-up. Heated cases come in the same heights as refrigerated and non-refrigerated cases for continuous line-ups.
